WELCOME
Coffee. Just better

15 years ago, Hans Errmann, Thomas Meier, and Peter Wildner created the NIVONA brand. The idea: Selling fully automatic coffee machines through specialist retailers.

Because business is still done between people. Because we believe in providing advice and service. Because every passion begins with a coffee. Just like our story.

This year, NIVONA is more eye-catching than ever – thanks to a new design and our new fully automatic coffee machines. NIVONA offers you the perfect, fully automatic coffee machine, whatever your needs.

Because your taste is what counts. With every cappuccino. With every espresso. Follow your passion. This is how special stories begin. We know what we're talking about.

Christian Fritsch

Peter Wildner

Yours, Peter Wildner
(Managing Director at NIVONA)

*Inspired
by baristas.
Made for you.*

What's most important to us at NIVONA.

Become part of a big family: If you have a NIVONA, you're one of us. To us, coffee is more than just a drink. It stands for passion and socialising, peace and quiet, and home. Coffee brings people together and transcends borders.

It's our mission to pass this on to you. That's why we make it as easy as possible to operate our fully automatic coffee machines. So you can enjoy your personal moments. A cappuccino in the afternoon with your loved ones. A caffè crema to start off the week. An espresso with friends after a perfect dinner in your own home.

After all, an invitation to have a coffee is always lovely. Fancy a coffee? You're invited.

*Here for you.
Providing
added value.*

It's actions that count, not words.

*We are promising you:
You'll be surprised.*

And you're the centre of our attention, especially when it comes to service. Because we want to be at your side with reliable support even after purchasing your NIVONA. We're here for you.

The precise technology of our fully automatic coffee machines' inner workings ensures ultimate coffee enjoyment. To ensure it hits the spot every time, we take time – for you.

Every time you call our service hotline or send us an e-mail, you'll get an answer to any queries you have, quickly and easily. You will be pleasantly surprised.

*Because there's
always scope for
a little extra.*

Perfectionists – we can't help it

*We keep going where
others stop.*

We're happy to go the extra mile for you. NIVONA is the alternative to conventional coffee machines: Top quality at a fair price. A long service life. Intuitive and simple operation.

Because we're driven by these values, we love working closely with our Swiss manufacturer. And you will only find fully automatic coffee machines from NIVONA at specialist shops. We will be sticking with these principles in future as well, because we appreciate all of our partners and our customers. We stand for long-lasting relationships.

And we know: We're never finished. Because there's always scope for a little extra. Development and improvement is a never-ending process. Which is why we keep going:

- To provide outstanding quality.
- To provide an outstanding coffee experience.

The **5'** series

Here, **coffee**
starts the morning
off on the right foot.

NIVONA

5'er

The entry-level model to kick-start your day

Make mornings easier – and the rest of your day too: The models in our 5 series create wonderfully aromatic and freshly ground coffee. Get out of the right side of bed with coffee from a fully automatic coffee machine. Without the need for a cumbersome filter.

Enjoy cups of coffee or espresso for two. Our compact model offers more than just a great deal. It's your introduction to the diverse world of coffee.

- Coffee & espresso – quick & easy
- Make cups of coffee or espresso for two.
- High-quality cone grinding mechanism made of hardened steel
- Manual SPUMATORE: If you want to top things off with milk foam

The **6'** series

Barista style.

Allrounder with a twist

6'er

You haven't really experienced coffee yet. At least not like this. With our 6 series, you can make coffee like a barista, with a fully automatic machine. Get to know our aroma technology and delight in the mildness of the coffee beans or bring out the full intensity of an outstanding flavour.

Our "Barista in a box" (technically: Aroma Balance System) is the key. Want to know the ins and outs of our aroma technology? Go to page 33 in this catalogue to find out more.

- Entry-level model for NIVONA aroma technology
- With "Barista in a box" (Aroma Balance System)
- Milk foam with EASY SPUMATORE
- Bluetooth operation via app

The **7**'series

*Delicious
cappuccino at the press
of a button.*

NIVONA

The comfort creator

We create cappuccino – with a touch of the button. **7'er**
Our 7 series has been reliably serving lovers of lattes and latte macchiato for years.

At its core: outstanding simplicity. Cappuccino is all about togetherness, trust and inspiration. We wanted this machine to create this feeling in every kitchen, so you can fully immerse yourself in your moment. We'll take care of the coffee.

- Cappuccino and latte macchiato at the press of a button
- Simply save your favourite coffee live
- Easy clean milk system

The **8'** series

Delight
in more
cappuccino.

The ideal type

A simple question separates you from a cappuccino just like one in the Piazza del Popolo: Coffee first? Or milk first?

Because coffee connoisseurs know: For true cappuccino pleasure, the milk has to gently envelop the coffee. Which means the coffee has to be in the cup first – a technical challenge for any fully automatic machine.

But our 8 series gives you the choice, at the simple touch of a button. Even for two cups simultaneously. Because, as we all know, cappuccino is best enjoyed together with your favourite people.

- Two cappuccinos or latte macchiatos at the touch of a button
- Barista-style cappuccino with aroma technology (Cappuccino Connaisseur)
- Easyclean milk system
- Save up to 10 of your own coffee recipes

The **9'30** model

2020
NEW

The elegance
of a true
classic.

NIVONA

Timeless design for special appeal

Timelessness is a rare quality – and this machine adds superior design and elegance to it: Our NICR 930 combines the essence of the 9 series with a refreshing new look.

Greater culinary delight and greater comfort: Coffee, cappuccino, or latte macchiato at the touch of a button – also for two cups at the same time if you fancy it. Every moment is seductive and elegant.

- New convenient operating concept
- Two cappuccinos or latte macchiatos at the touch of a button
- Easyclean milk system
- Timeless design

Top performer

Taste is a question of the right set-up – convenience is a given. The models in our 9 series combine innovation and intuition based on the latest aroma technology. The individual displays of the models offer you clear insights during the brewing process.

With Aroma Pre-Select: You can use the app to adapt all recipes to suit each NIVONA coffee variety, as recommended by our barista.

The water tank illumination adds another visual highlight. All just so that you can get the most out of your cappuccino and other coffees.

- Exclusive Aroma Pre-Select function via app
- All the features of aroma technology in a single device
- Stylish design with intuitive display and water tank illumination
- Flying Picture – transfer your pictures to the NIVONA display via app

The **10'** series

2020
NEW

Reliable
pick-me-up
seeks new job.

NIVONA

Special officer on duty

At work, everything is full speed ahead – apart from the coffee? Our NICR 1040 solves this problem with ease. It is easy to operate and clean, combined with an extra large bean container and water tank, making it ideal for any office.

With a new milk tube and easyclean+, the milk system can be cleaned at the touch of a button. No more unplugging the milk tube to make cleaning easier. And if meetings take longer than planned, the quantity function provides up to 1.9 litres of coffee at a time,

while the Quick profile delivers lots of coffee at the touch of a button, fast.

Making working hours more enjoyable.

- Designed for 60 to 65 cups a day
- Optimised for office use with a large water tank and bean container
- Quick profile and quantity function for fast delivery of lots of coffee
- Quantity function: for up to 1.9 litres of coffee at a time

*It all comes down to the **beans.***

***Coffee beans**
Carefully selected,
lovingly roasted*

No matter how good a fully automatic coffee machine may be – if you don't use high-quality coffee beans, you won't enjoy your cappuccino or espresso. This is why we have developed three special blends in close cooperation with our coffee roasters. Enjoy the full-bodied diversity of coffee and indulge yourself on a journey of the senses.

CAFFÈ
AREZZO
100% Arabica
highland beans

This coffee is characterised by its caramel note and mild taste. Especially pleasant thanks to a velvety soft body, these beans are ideal for cappuccino and coffee.

Mild, harmonious, balanced

NIA 1000

ESPRESSO
MILANO
50% Arabica
highland beans
50% Gourmet Robusta

This balanced espresso bean is a fairly mild blend and an all-rounder. Specially produced for fully automatic coffee machines, its fully rounded aroma develops harmoniously in espresso, cappuccino and long coffee drinks.

Harmonious, aromatic, creamy

NIM 1000

ESPRESSO
TORINO
100% Gourmet Robusta

Intense and low in acidity: Our insider tip for espresso connoisseurs. With a taste reminiscent of nuts and dark chocolate. Long-lasting aftertaste and pleasure in every cup.

Strong, tangy, chocolatey

NIT 1000

Don't forget the
milk.

NIVONA

Accessories for milk preparation

Make life easier

You are equipped for any challenge with our accessories. The milk for your cappuccino stays cool in the NICO 100. Our Design milk container NIMC 1000 comes without its own cooling system, but is refrigerator and dishwasher-safe. Clean performance at its best.

NIVONA Cooler NICO 100

Optimal cooling whatever the temperature. Our NICO 100 ensures that the milk for cappuccinos and other milky coffee beverages stays fresh. Fits all series 6, 7, 8, 9 and 10 fully automatic coffee machines. Especially practical where people drink lots of cappuccino. Simply put the milk carton in and everything's cool.

- 15 x 31.5 x 27 cm / (W x H x D), 2.6 kg
- 230 V / 50 Hz / 23 W
- Refrigerates commercially packed milk (1 l)
- Cooling capacity: Up to 20°C, below room temperature and up to max. 2°C

NICO 100

Design milk container NIMC 1000

Without its own cooling system, but perfectly suited for refrigerators and dishwashers: Our NIMC 1000 offers optimal storage for milk in an eye-catching design next to your NIVONA.

- Stores fresh milk perfectly
- Made of transparent plastic
- Shows the milk level at a glance
- Capacity: 1 litre
- For SPUMATORE models with cappuccino function

NIMC 1000

Milk tube NIMA 330

Clean milk tube for optimal milk foam, in a practical pack of 3. So you always have a spare milk tube at hand. After all, this is the only way to make great cappuccino and latte macchiato.

- Spare milk tubes incl. connection nozzles for all NIVONA models with OneTouch SPUMATORE
- Pack of 3

NIMA 330

Don't spill the
beans.

Accessories for coffee beans

The perfect set-up

CafeGrano grinds your beans to perfection. Whether for small espresso machines or for brewing coffee by hand, you'll always have the full taste and aroma of freshly-ground coffee. And with our additional bean container, your NIGR 1040 can hold a full kilo of delicious coffee beans.

CafeGrano coffee grinder NICG 130

Roasts of a superior calibre deserve to be ground properly. Whether for small espresso machines or for brewing coffee by hand: CafeGrano finds the right setting and gets the best out of the bean – not only for fully automatic coffee machines, but also for other types of preparation. This grinder allows you to produce delicious freshly ground coffee.

- Multi-level grinding setting
- Grinding that conserves the aroma
- High-quality hardened conical grinder

NICG 130

Additional bean container NIZB 410

Extends the bean container of our 1030 and 1040 models to a capacity of 1000 g. Very easy to install.

- Container height: 4 cm
- Lid still closes perfectly

NIZB 410

Keep it *clean.*

**NIVONA PREMIUM liquid descaler
NIRK 703**

Not only dissolves lime, but also binds it. The liquid descaler reliably removes limescale from the fully automatic machine during cleaning.

- Highly effective
- Descales without residues
- Gentle on materials and food-safe

 Use NIVONA CLARIS fresh water filters for your fully automatic coffee machine and reduce the need for descaling.

BOTTLE MADE OF 100% RECYCLING PET

**NIVONA CreamClean milk system cleaner
NICC 705**

Creamy, fresh milk foam is only possible if your NIVONA milk foamer is perfectly clean. Use our CreamClean milk foamer cleaner for optimal cleaning.

- Effective cleaning
- Dissolves and removes grease and protein deposits without residues
- Gentle on materials

BOTTLE MADE OF 100% RECYCLING PET

The NIVONA cleaning and care range

No more rolling your eyes! At least not while cleaning your NIVONA. Thanks to our cleaning products, you can keep your fully automatic coffee machine clean as a whistle. As simple as possible. As thorough as necessary.

**NIVONA CLEAN³BOX
NICB 301**

Cleaning in a box: Our CLEAN³BOX contains everything you need for cleaning your NIVONA: PREMIUM liquid descaler, CreamClean milk foamer cleaner, and our cleaning tablets.

**NIVONA CLARIS fresh water filter
NIRF 700**

Your NIVONA even filters your water – thanks to the CLARIS fresh water filter. For optimal water quality and a long service life of your NIVONA.

- Reduces lime
- Removes chlorine smell and taste
- Filters out contaminants, in particular metals, heavy metals, pharmaceutical residues, pesticides and herbicides
- Purely organic material without chemical additives
- Reduces need to descale fully automatic coffee machine

**NIVONA cleaning tablets
NIRT 701**

Ensure full coffee aroma and pure drinking pleasure – by keeping your NIVONA fresh and clean. Our cleaning tablets are simplicity itself.

- Dissolves and removes coffee and oil residues effectively
- Cleans thoroughly and gently

 Clean the brewing unit regularly, but at least once per month. Simply remove it, wash it under cold water, let it dry, and put it back in. You should also do this before every system cleaning.

Coffee

*the way no machine can.
From a fully automatic
coffee machine.*

1 Aroma Pre-Select

With compliments of our barista: Use the app to adapt all coffee recipes of your NIVONA to suit each NIVONA coffee variety, as recommended by our barista. Exclusive for our 960 and 970 models.

2 Cappuccino Connaisseur

For barista-style cappuccino, the milk has to gently envelop the coffee, which means the coffee has to be in the cup first. What a barista can easily achieve with a portafilter is a technical challenge for fully automatic coffee machines. But your NIVONA handles it with ease. From the 8 series onwards, you determine the order of milk and coffee for your cappuccino.

Triple technology for more AROMA

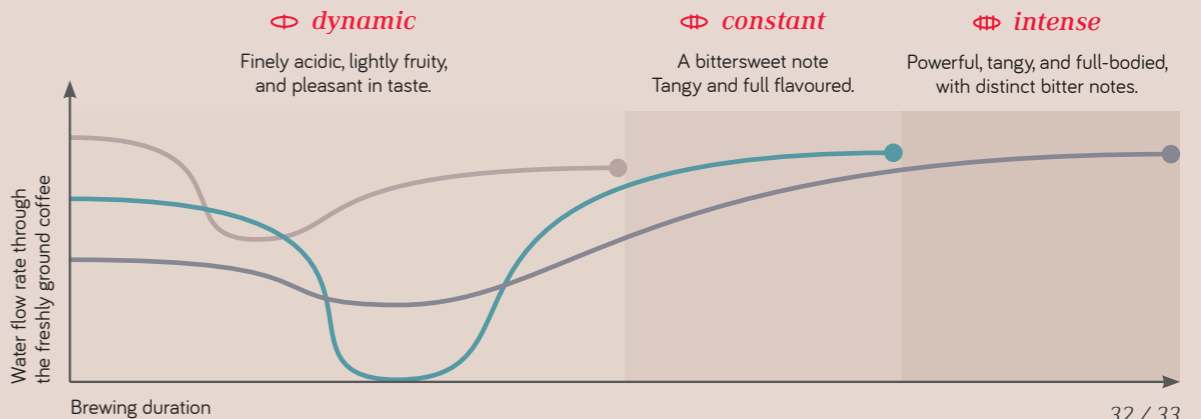

Because each coffee is different, just like each coffee enthusiast. With your NIVONA, you're not just making any coffee. Thanks to our unique aroma technology, you're making coffee your way.

3 Barista in a Box (Aroma Balance System)

A coffee bean contains over 800 different aromas, which can only be unlocked if you vary the brewing process. Which is why our unique Aroma Balance System gives you a choice. From harmonious mildness to full-bodied intensity, you can now set three different taste profiles. Available from our 6 series upwards. Get the best from every bean.

This is what the Aroma Balance System gets out of our Espresso Milano, for example.

BASIC FEATURES:

15-bar pump pressure
230-volt voltage
1455 W (8 series/9 series 1465 W /
NICR 1040 2700 W)
ECO mode / 0-watt energy saver switch

Pre-brewing system
Adjustable grinding degree
Adjustable coffee quantity (approx. 20–240 ml)
Powder compartment for pre-ground coffee (for one portion)
Removable water tank and cable storage compartment

Brewing unit removable for cleaning
Control indicator for filter change
Individually adjustable water hardness (4 levels)
Automatic maintenance programs for descaling and cleaning
High-quality cone grinding mechanism made of hardened steel
